

IEA SHC National Day

Integrating Solar in Buildings: What We've Learned and What's Next

Tuesday, June 15th 11:00 am – 1:00 pm UTC/GMT

Welcome & IEA SHC Overview

Daniel Mugnier, IEA SHC Chair

IEA EBC Overview

Takao Sawachi, IEA EBC Chair

IEA SHC and National Research Priorities in the Netherlands

Tomas Olejniczak, Dutch ExCo Member

IEA SHC Work – What We've Learned

- Renovating Historic Buildings Towards Zero Energy
Alexandra Troj, Task 59 Operating Agent
TBD, Dutch Task 59 expert
- PVT Systems and Collectors
Jean-Christophe Hadorn, Task 60 Operating Agent
Corry de Keizer, Dutch Task 60 expert
- Solutions for Daylighting and Electric Lighting
Jan de Boer, Task 61 Operating Agent

Round Table Discussion – What's Next?

- How can solar help reach building renovation targets?
- Which technology for which building?
- How can we stimulate building retrofits using solar?

Moderators: Daniel Mugnier and Takao Sawachi

****This event is part of the IEA SHC Solar Academy National Day series****

Another upcoming event is the IEA EBC workshop: Reducing the Performance Gap between Design Intent and Real Operation on Friday, June 11th from 12:00 pm – 2:30 pm UTC/GMT. To register for the IEA EBC workshop go to: <https://www.iea-ebc.org/event?EventID=7664>
